# New big data study of 145 countries show COVID vaccines makes things worse (cases and deaths)

I missed this study. So did the mainstream media for some reason. But this study is yet another independent analysis that is difficult to refute: we have been misled by the CDC, FDA, and NIH.

## At-a-Glance

- *A new study by Kyle A. Beattie entitled “Worldwide Bayesian Causal Impact Analysis of Vaccine Administration on Deaths and Cases Associated with COVID-19: A Big Data Analysis of 145 Countries” concluded that vaccines are doing the opposite of what they were promised to do.*
- *Rather than helping us regain our freedoms, the vaccines are associated with higher rates of COVID-19 infections and higher rates of COVID-related deaths. In the US, the vaccines were associated with an increase of 38% in the number of COVID cases per million and an increase of 31% in the number of deaths per millions associated with COVID.*
- *Numerous other studies have independently reached the same conclusion. The more you vaccinate, the worse things get.*
- *Beattie concludes: “These results should encourage local policy makers to make decisions based on data, not narrative, and based on local conditions, not global or national mandates”. However, based on past performance it is not expected that health authorities will react to these results in a rational fashion. Rather they will continue pressing their vaccine mandate for all, regardless of age or medical history.*

### Density Plot: Effect of Vaccines on Total Deaths Per Million grouped by Continent

Quantiles are represented by the blue horizontal lines on each curve.  
This data shows % Causal Impact of Vaccines up to +500%.

Source: Data collected from OWID, analyzed and plotted by Kyle Beattie using RStudio as of Sat Oct 30 11:27:15 2021

The next time you see your county health officer, President Biden, or Boris Johnson why not ask them if they can find a mistake in this study by Kyle A. Beattie entitled [Worldwide Bayesian Causal Impact Analysis of Vaccine Administration on Deaths and Cases Associated with COVID-19: A BigData Analysis of 145 Countries](#) (the [PDF version is here](#)).

The study found that the COVID vaccines cause more COVID cases per million (+38% in US) and more deaths per million associated with COVID (+31% in US).

The abstract says:

The statistically significant and overwhelmingly positive causal impact after vaccine deployment on the dependent variables total deaths and total cases per million **should be highly worrisome for policy makers. They indicate a marked increase in both COVID-19 related cases and death due directly to a vaccine deployment that was originally sold to the public as the “key to gain back our freedoms.”** The effect of vaccines on *total cases per million* and its low positive association with *total vaccinations per hundred* signifies a limited impact of vaccines on lowering COVID-19 associated cases.

These results should **encourage local policy makers to make policy decisions based on data**, not narrative, and based on local conditions, not global or national mandates. These results should also encourage policy makers to begin looking for other avenues out of the pandemic aside from mass vaccination campaigns.

## In other words, we were lied to

The vaccines are making this worse, not better. This is why we are not getting ourselves out of the hole. Mandating vaccines are making this

This is hardly the first study to reach those conclusions. These studies, all done independently, found the same thing—the more you vaccinate, the worse things get.

1. [The Lyons-Weiler paper](#)
2. [The Harvard study](#)
3. [The German study](#)
4. [The Denmark study](#) (which shows Dr. James was right; you have to boost every 30 days to maintain protection.
5. [German government data](#) (this is from [The Expose](#))
6. [80% of the COVID deaths in the UK are vaccinated](#)
7. [Lancet: 89% Of New UK COVID Cases Among Fully Vaxxed](#)

## The response to this new study by the health authorities is predictable

I think I've figured out the pattern and can now confidently predict how health authorities worldwide will react to this stunning result: they will ignore it. Instead, they will mandate vaccines for everyone of every age ASAP. Am I right?

Hello Steve,

Thanks a lot for these studies, perhaps already a link for a French translation? 😊 😊
