Shocking New Video By Canadian Doctors Shows Massive Fraud In Pfizer's Clinical Trials For Its Vaccine

 Facebook  Twitter  WhatsApp  LinkedIn

The COVID World post date: January 1st, 2022

The Canadian Covid Care Alliance (CCCA), a group of over 500 independent Canadian doctors, scientists and health care practitioners, has released a video presentation called "The Pfizer Inoculations For COVID-19 – More Harm Than Good" and the evidence it presents about Pfizer's safety trials for its mRNA vaccine is truly shocking.

Canadian Covid Care Alliance (CCCA) released a video presentation in a 51-slide display that showed inadequacies, errors and acts of fraud in the Pfizer trials

The full 40-minute **video presentation** by the group includes PDF slides that show  their **COVID injections** red to the placebo group in their trial.
 Would love your thoughts, please comment. 

Their analysis continues and explains how Pfizer **failed to follow established, high-quality safety and efficacy protocols** for vaccine development as everything was done in under a

year and animal testing was skipped.

The detailed presentation also shows how Pfizer deliberately minimized the injuries caused to Maddie de Garay, who became paralyzed from the waist down after participating in the **Pfizer Clinical Trials for 12 to 15-year-olds** in December 2020.

De Garay still needs a **wheelchair** to get around and a **feeding tube for nourishment** a year after the trials.

Pfizer deliberately minimized the injuries caused to Maddie de Garay.

The concluding slide of the presentation contains the following points:

– It's clear that Pfizer – and the agencies overseeing their trials – failed to follow established, high quality safety and efficacy protocols **right from the beginning.**

74

– We have presented **Level 1** evidence of harm from Pfizer's own trial inoculations, much less the available data **that harm would be caused to its citizens.**

– **Any government that approved this medical intervention for its citizens** should have ensured that the trial had used the appropriate

clinical endpoints and high quality safety science.

– Any government official who possesses this evidence and continues to allow its citizens to be inoculated with a toxic agent is, at the very least, **negligent**.

One must ask, "Why the insane drive to vaccinate people in age groups (the young) who are not particularly at risk from COVID?" Well, these are the people who have not yet bred. If you wanted to reduce the population, there's no need to kill anyone (everyone gonna die, eventually, anyway), just hinder the ability of the upcoming two generations, say, by sterilizing a significant percentage of them via a regimen of vaccinations.

I'm not saying the vaccines aren't killing people outright – they are. I'm saying if that was the plan, it would not be terribly effective to just kill off a few hundreds of thousands of people who already have children and grandchildren. Hindering reproduction in the next generation or two, who have not yet had children, would be a far more effective method to reduce the population over time.

Your ignorance is profound. The folks who get hospitalized without being vaccinated are mostly not getting to go home. They end up (go see the trucks) in refrigerated, 53-foot 18-wheelers, awaiting claim, and burial arrangements if any family is left to claim their remains. If every one of you had gotten vaccinated, the plague would have had no HOSTS in which to grow. It would have died out. Do you see EBOLA any more? How about Polio, Meningitis, Bubonic Plague, Measles, German Measles, Mumps, Rubella, Scarlet Fever, Small Pox, and even Pneumonia any more? While pneumonia has both viral and bacterial sources, the vaccines that we all have protect our society. We get vaccinated to PROTECT OTHERS as well as OURSELVES. When the hospital was completely full of Covid patients was unable to receive me a few months ago despite my urgent need for

 help from two smaller hospitals during emergency. Finally, four covid patients died in the bigger hospital, and before the beds were filled again with UN-VACCINATED patients, they got me into the fourth bed, and immediately operated on me, saving my life. Don't be foolish believing the Russian dis-information that will grossly weaken our military systems and

our national food supplies, and educational systems! They are lying to YOU, just as Trump did every single day that he was in office. Do some genuine research: Go downtown to your larger hospitals, and find out about the numbers. See if you can be admitted for, say, a little brain surgery. If they are able to fix you, be grateful. GET VACCINATED.

I urge you to read the book "Anyone Who Tells You Vaccines are Safe" by Dr. Robert M. X in Coleman. Would love your thoughts, please comment.

Since the advent of widespread use of vaccines, there has been an explosion of AUTO-IMMUNE diseases, many cancers, and other diseases, whereas, before those vaccines, there were almost NONE of those diseases. That is NOT an opinion but a fact.

74

I know too many people who have been 'vaccinated' against COVID who either ended up getting it and are/were sick or VERY sick or hospitalized, or who suffered/are still suffering really bad side effects from the vaccine, including Atrial Fibrillation, abnormal bleeding, miscarriage, or other symptoms, and that is only the people I PERSONALLY know. I have had lots of vaccines in my lifetime and suffer from multiple auto-immune and other disorders. JUST like so MANY others who have been vaccinated. If you want to have questionable substances injected into your body, that's YOUR CHOICE, I would NEVER be so POMPOUS as to DICTATE to you what medications you 'should' take, all I ask is that you return the favor for the rest of us. If you put your trust in vaccines, that's your prerogative, but please don't ask the rest of us to follow you like lemmings to the sea.

You do know that rates of Covid have shot up, the more people are vaccinated, the more cases there are? Yes? Clearly your assertion that if everyone was vaccinated that there would be no more hosts is flat out wrong. Evidenced by the South pole base wherein every one, 100% of them were fully vaccinated and they had a large spike of the virus spread through them. The countries with the highest levels of vaccination are now showing the highest levels of covid infection. A very good analogy is you have a few weeds in your garden so you treat it with weedkiller. it appears to work a bit at first then the weeds come back even stronger and the more you spray, the worse the weeds get. That is NOT how vaccines should

ase the death numbers from
the virus (in the UK) by assiging every death of "ANY" cause within
28 days of a positive test to Covid, even people falling off roofs,
killed in car accidents, heart attacks, strokes, suicides etc... yet
falsely minimise the deaths from the vaccines themselves. The

whole mainstream presentation of the safety of the vaccines and the danger from the virus is totally flawed and false.

Masks don't work
The vaxxed can still get it
The vaxxed can still spread it
The vaxxed can still die from it.
The unvaxxed that got it are 25 times stronger immunity than your vaxxed sheep.
The vaxx you got doesn't even work on any virus other than the one it was specifically for.
The vaxx you got decreases in immunity within 3 to 6 months .
So keep getting boosters for the rest of your life or until they kill you fool.

You are a liar. Fauci and his American cohorts, who financed and had a huge impact in the development of the bio-weapon "covid-19" for their end plan to get everyone inoculated with this poison, are not Jewish. The Chinese involved are not Jewish, Bill Gates who is behind this as well, is not Jewish. The vast, vast majority involved is the covid-19 spread and inoculation mandates are not Jewish. Israeli politicians with their stupid belief in these poison "vaccines" are injecting their own people AND THEMSELVES! Do you think they want to kill themselves and their kids? Intentionally confusing national Jewishness with religious Jewishness though imho, is just being plainly deceptive. Especially when he did a far beyond Nuremberg event himself selling all of Israel to Phizer for a gigantic EXCLUSIVE medical experiment. Just like they were black slaves with the drip or 18th century Chinese opium addicts or something.

You have loss of information of some data if and only if you re-encode the data with a lossy encoder, given you can decode it

lossless wrt the original encoder (i.e. the original encoder needs to be known).

I think you can make this a theorem (but I just claim it here).

And btw this gives you another criterion for data implants as they may differ in the information density. On the visual side there is more: for example, you can scan for the color space function field and check if it differs on the apparent implant site.

It is just my experience with computer graphics. It was the first reaction of my mind even before I could verbalize my thoughts. Like you detect fake images in movies. Basically the first two ones look like copied into the background. You have to align the image on the target plane. With this procedure you usually lose information of your source because you break symmetry under the rotation group of your source (you have discretized your image). So first think is you could do a filter on the boundary and you should detect low quality, e.g. too much aliasing. Also, machine-learning algos are designed to compensate for this defect, making things harder to detect, making these clips look in particular cheap. So I did not bother. I tried to find clips of ABC Good morning etc. The clip mentioned in the video is also discussed on Twitter by a lot people and not a single one confirmation (but one disapprove) – that is why I have to ask first here. Moreover, would it have not been more substantial to show a snapshot of the Media-Politicis-Pfizer shell-game, instead?

This video is a compellingly excellent narration of Pfizer's and Pfizer-BioNTech's continuing participation in the horrific coordinated crimes against humanity collectively perpetrated by not only Moderna, Inc., and Johnson & Johnson and its subsidiary, Janssen Pharmaceuticals, Inc., the three manufacturers of mRNA COVID-19 inoculations approved by the U.S. FDA and CDC for use in the U.S. (Different COVID-19 Vaccines | CDC, last accessed 1-02-2022), but also by Anthony Fauci, M.D., the FDA and the CDC.

Every human capable of sound critical analysis and rational thinking – particularly healthcare practitioners and those involved in establishing and administering health care policies – should devote time to reading Robert F. Kennedy, Jr. *The Real Anthony Fauci: Bill Gates, Big Pharma, and the Global War on Democracy and Public Health* (Skyhorse Publishing, N.Y., N.Y. 2021). A “lie” is an intentional deception in the form of a verifiable assertion that is literally false. The content of CCC’s video and *The Real Anthony Fauci* establish beyond reasonable doubt that all (each and every) pharmaceutical manufacturer and government proclamation that any COVID-19 inoculation is “safe” or “effective” to prevent COVID-19 transmission, disease or even viral load in “fully inoculated” persons is an unadulterated fetid “lie.” Just as a “lie” is propaganda’s first principle, one of truth’s first principles is “if it has to be misrepresented or concealed, it’s probably false.”

But this COVID-19 pandemic is much, much more serious: Among other censored and suppressed facts is that the SARS-CoV-2 virus is an engineered bioweapon-virus created in 2015 in a “gain-of-function” research project conducted jointly by the Wuhan Institute of Virology and the University of North Carolina-Chapel Hill.

2020: In February 2020 French and Canadian virologists collaborated in analyzing the corona virus that emerged in 2019 in Wuhan, China. In summary, the team reported:

“In 2019, a new coronavirus (2019-nCoV) infecting Humans has emerged in Wuhan, China. Its genome has been sequenced and the genomic information promptly released. Despite a high similarity with the genome sequence of SARS-CoV and SARS-like CoVs, we identified a peculiar furin-like cleavage site in the Spike protein of the 2019-nCoV, lacking in the other SARS-like CoVs.”

The “furin-like cleavage site in the spike protein of the 2019-nCoV” that was “lacking in the other SARS-like CoVs” is precisely how the 2015 GOF research modified the spike protein of SARS-CoV.

We need more brave doctors and scientists to come forward and speak the truth about the effects of this poison. Ivermectin works and should be allowed to be used freely.

The company should be sued for misleading World leaders, as well as the people at large for the sole purpose of profits instead of guarding the welfare and health of the world population. Some organisations must take the lead and bring them to justice.
