

# What's Simian Virus 40 Doing In The Vaccines?

Why are so many vaccinated people dying of turbo cancer? We might have an answer now.

The microbiologist Kevin McKernan recently announced that he's found DNA contamination in the COVID vaccines. He also found a gene that promotes cancer called SV40 (Simian Virus 40) in the vaccines.

What does that look like?

So the “vaccines” are contaminated with massive amounts of functional bacterial DNA in plasmids which act as a carcinogen — that’s problem #1.

Here’s [a video of Kevin McKernan showing the DNA contamination](#) in the vaccines.
