[Kansas Attorney General Kris Kobach is suing Pfizer](#) for its misleading claims and censorship. Koback says the lawsuit “Is part of a multi-state effort, in which more suits may follow, depending on Pfizer’s reaction.”

Maybe now, we know why [Melissa McAtee](#) has been so mum. McAtee worked in the quality control department at the vaccine plant in McPherson, Kansas, overseeing the production line as a product inspector. Pfizer

In December of 2021, Melissa had this to say to Pfizer:

“I’m coming for you. (Laughs). I’m going to make sure they’re held accountable. Even if they try to take me out, even if they suicide me, throw me in jail, there are enough people with this information, they’re going to be held accountable and I hope that the world is able to see the things I’ve had to see, because I was not against Pfizer. I was not against pharmaceuticals. I am late to the party!..I loved my job.

TRANSCRIPT OF STATEMENT BY KANSAS ATTORNEY GENERAL KRIS KOBACH

Pfizer marketed its vaccine as safe for pregnant women. However, in February of 2021, Pfizer possesses Promoted x reports for

reported a miscarriage, many within days of the vaccination.

Pfizer also possessed information from its own October 2020 study on pregnancy in rats, indicating that its COVID-19 vaccine was likely linked to infertility, loss of litters, and stillborn offspring.

Number two, safety relating to heart conditions like myocarditis. Pfizer consistently denied any evidence of a connection or safety signal between its COVID-19 vaccine and myocarditis or pericarditis. Indeed, on January 18th, 2023, when asked whether its vaccine caused strokes or myocarditis, Pfizer chairman and CEO Alan Burla stated, quote, “We’ve not seen a single signal, although we have distributed billions of doses,” end quote.

The “signal” that he was referring to as a safety signal, which refers to a negative consequence. However, as Pfizer knew, the United States government, the United States military, foreign governments, and others had found that Pfizer’s COVID-19 vaccine caused myocarditis and pericarditis.

Number three, effectiveness regarding variants. Pfizer also claimed that its COVID-19 vaccine protected against COVID-19 variants, even though data available at the time showed Pfizer’s vaccine was effective less than half the time against variants.

COVID-19. Pfizer later admitted that it had never even studied transmission of it after its recipients received the vaccine and whether they could say it stopped transmission.

After making these misleading statements, Pfizer also engaged in some censorship attempts. Emails revealed that Pfizer officials coordinated with social media platforms to censor any speech critical of Pfizer's COVID-19 vaccine safety and effectiveness.

It should also be noted that Pfizer elected not to join the Federal Government's vaccine development program known as Operation Warp Speed and declined that development funding. When asked about that, Pfizer's CEO, Albert Bourla, said Pfizer did not participate in the program in order to, quote, "Liberate," end quote, Pfizer's scientists and to avoid government oversight of its vaccine development.

He also said, quote, "They want reports. I don't want to have any of that," end quote. "Referring to 'they', when he said 'they', he was referring to the Federal Government.

Pfizer's misleading statements contributed to success in marketing its vaccine in Kansas. By February of 2024, Pfizer had delivered over 3.3 million doses of its vaccine in the state of Kansas.

more suits may follow, depending on Pfizer's reaction.

A Look at the Supreme Court Ruling on the Obama/Biden Vaccination Mandates.

The Supreme Court on Thursday struck down a Biden administration mandate that large businesses require their employees to either be vaccinated or tested once a week for the coronavirus. In a 6-3 order, the justices blocked an Occupational Safety and Health Administration (OSHA) emergency rule for businesses with more than 100 employees – one that would have impacted more than 80 million workers.

The justices did, however, allow a vaccination mandate by the Centers for Medicare and Medicaid Services for health-care workers at some 76,000 federally funded facilities to stand.

Obama, Bush and Clinton pledge to film themselves getting Covid vaccine.

Former US presidents Barack Obama, George W Bush and Bill Clinton have volunteered to have their Covid-19 vaccinations be publicly televised.

The trio of two Democrats and one Republican said they would get the jab once it has been approved by regulators and recommended by US health officials.

The move is intended to boost public confidence in the safety and efficacy of coronavirus vaccines.

Polls indicate large swathes of the US public are reluctant to get the jab.

A Gallup poll – conducted in October before the results of the Pfizer and Moderna vaccine trials were released – showed roughly six in 10 Americans would be willing to take the vaccine, up from a low of 50% in September.

No vaccination has yet been approved in the US, but government regulators will be examining Pfizer and Moderna's vaccines in the coming weeks.

"I promise you that when it's been made for people who are less at risk, I will be taking it," Mr Obama said in a SiriusXM radio interview on Wednesday.

"I may end up taking it on TV or having it filmed, just so that people know that I trust this science, and what I don't trust is getting Covid."

Let us not be confused by either the perps or the arm chair speculators.

There are many participants in this delusion. Some knowing, some not knowing. But know this, that every generation has been challenged by "Babylonians" who attempt to usurp the throne of the Creator. My generation was no different, your generation is no different.

This generation is perhaps more to the point in that they admit that they are attempting to recreate mankind in their own image, or shall we say in the image of THEIR ideal man. They are quite open about this fact minus the details and remember the devil is always in the details! Yet most seem to have a crop of potatoes growing in their ears and brains. Who are these "they"? Today they are the monopoly capitalists! Lets break this down a little bit.

There are hundreds of computer operating systems in existence, but less than a mere handful in the popular public domain, thus providing the owners of those systems monopolist positions. Monopolists dictate policy and harvest it's pricing bounty, creating Billionaires in the process. At least one of these privileged monopolists is a Billionaire Eugenicist. A Eugenesist who is well known, well experienced in experimental injections. You know exactly who I have in mind, or should know. He has made no secret of his Promoted X ions! Yet the
