

The World Deserves an Apology

Dr. Aseem Malhotra speaks out in a World-Wide Protest in Geneva

“[Liberté, Liberté, Liberté!](#)” chanted the massive crowd in unison. People from Australia, Canada, New Zealand, Europe, and the United States gathered in front of the United Nations Headquarters in Geneva, Switzerland to protest against the WHO and UN attempted power grabs.

Dr. Aseem Malhotra, a U.K. cardiologist who is renowned around the world for his courage, decency, and outspoken commitment to truth and health, has surfaced as the guiding voice to humanity, the 8 billion inhabitants of the planet Earth, who are facing an onslaught by an unelected tiny group of billionaires. “The world deserves an apology

The lead attorney spoke and reminded the group, “This team is led by an International group of lawyers who gave a press conference. Remember the law is on your side. The lawyers are on your side.”

“What they want is vaccination from the cradle to the grave.”

The team’s message was that health should not be dictated by politicians, but instead should be the inalienable right of all human beings.

The message was that the 8 billion human beings on the planet must stand firm in rejecting the European Union, WHO, and UN’s attempted global coup and insist that the rule of law and human rights be respected.

Dr. Astrid Stuckelberger highlighted the underlying problem, “The mechanics of the WHO and United Nations is completely corrupted [[1:01:30](#)].”

Dr. Stuckelberger announced that she was representing a group of 16 lawyers [[1:02:10](#)], one of them who was conspicuously absent from the proceedings, an International Lawyer by the name of Reiner Fuellmich, who has been imprisoned under highly questionable circumstances after he mounted legal challenges to the narrative.

“Free Reiner Fuellmich!” announced Dr. Stuckelberger.

Dr. Stuckelberger repeatedly requested, “Free Reiner Fuellmich not only Assange [\[1:01:53\]](#).”

Dr. Stuckelberger touched the most delicate nerve when she reported that her poster concerning freeing Reiner Fuellmich was “disallowed” for display at the protest [1:04:35].

While Julian Assange has remained a thorn in the side of the global elite, Reiner Fuellmich represents much more of a threat, so much that he not only had to be silenced - but furthermore, all mention of his name had to be censored.

It therefore bears underscoring his [message which is vividly presented here by Reiner himself](#):

Free Reiner Fuellmich. It's ridiculous that Reiner is still imprisoned.

Thank you. And I agree though would respectfully suggest the world deserves far more than an apology and we didn't experience an actual pandemic. They didn't 'fail' with the pretend pandemic, they created it in order to push more controls and experimented and killed humans in the process.

The world deserves to free themselves of this force immediately, hold them accountable and take their planet back.

Best.
