# **Biden Administration Promises to Veto any Legislative Effort That Blocks Vote or Ballot Fraud**

July 9, 2024 | [Sundance](#) | [399 Comments](#)

The people behind Joe Biden that used illegal voter registration, subsequent ballot harvesting, and ultimately corrupt ballot counting to install Biden into office, have threatened to veto any legislation that would impede their election fraud operation.

EXECUTIVE OFFICE OF THE PRESIDENT  
OFFICE OF MANAGEMENT AND BUDGET  
WASHINGTON, D.C. 20503

July 8, 2024  
(House Rules)

## STATEMENT OF ADMINISTRATION POLICY

### H.R. 8281 – Safeguard American Voter Eligibility Act

(Rep. Roy, R-TX, and 104 cosponsors)

The Administration strongly opposes H.R. 8281, the Safeguard American Voter Eligibility Act. It is already illegal for noncitizens to vote in Federal elections—it is a Federal crime punishable by prison and fines. The alleged justification for this bill is based on easily disproven falsehoods. Additionally, making a false claim of citizenship or unlawfully voting in an election is punishable by removal from the United States and a permanent bar to admission. States already have effective safeguards in place to verify voters' eligibility and maintain the accuracy of voter rolls. This bill would do nothing to safeguard our elections, but it would make it much harder for all eligible Americans to register to vote and increase the risk that eligible voters are purged from voter rolls. The evidence is clear that the current laws to prevent noncitizen voting are working as intended—it is extraordinarily rare for noncitizens to break the law by voting in Federal elections.

The President has been clear: he will continue fighting to protect Americans' sacred right to vote in free, fair, and secure elections, including by calling on Congress to pass the John R. Lewis Voting Rights Advancement Act and the Freedom to Vote Act. If House Republicans really want to do something about securing our border and fixing our broken immigration system, they should vote on the border deal that the President negotiated with a bipartisan group of Senators—this would provide immigration officials the resources they need to do their jobs and be the toughest and fairest set of reforms to secure the border that we have seen in decades.

\* \* \* \* \*

By now we should all know the essential process being deployed. This is the reason for the open border policies.

The Biden administration (DHS) is not “importing democrat voters.” Instead, DHS is importing people, names, that allows the state fraud process to generate ballots. This is an important distinction.

The migrants will not use the ballots. The DNC harvesters will collect them, fill them out (Team Obama), then the Precinct workers will scan them and count them (Team Clyburn). Illegals don't need to vote. They only need to exist to create a ballot. {GO DEEP}

When people say the voter fraud issue has not been proven in the courts, there is another important distinction. Typical **EXAMPLE** of court cases:

◆ Were the 400,000 ballots accurately counted?

COUNTY: Yes.

◆ Were the 400,000 ballots accurately matched to 400,000 voter registration rolls?

COUNTY: Yes

◆ Were the 400,000 voter registrations legal?

COUNTY: Um, that's not our job.

That's the game. The game is rigged.

The people in charge of making sure voter registration rolls are legal and accurate, have a vested interest in making sure the voter registration rolls are not legal and accurate.

The difference between “ballots” and “votes” is previously explained {[SEE HERE](#)} and absolutely critical to understand before moving forward.

Thankfully a large percentage of conservatives, intellectually honest independents and even some establishment republican donors have read our research and are now starting to have the 'votes' vs 'ballots' conversation. That understanding is critical, because any conversation that does not accurately identify and accept the problem is futile.

**The Importance of Election Rolls** – As we saw from the California initiation point (Motor/Voter), in order to most effectively use the mass distribution of ballots as an electioneering process you first need a massive state secretary voter file in order to generate physical ballots.

Remember, votes require people – ballots require systems. However, those systems need a physical person for attribution of the ballot. That's where the import of people, the open border, comes in.

Any institutional system that can link people into the SoS system to generate a larger registration file for ballot distribution is a net positive. The key point is not to generate voters, the key is to generate ballots – the more the better. Mass printing of ballots is the origin of the electioneering process.

Any state or federal system that links a physical identity to the secretary of state voter rolls is good. Any system, like the USPS postal change of address system, that would remove physical identities from the state voter rolls is not useful. The goal is to maximize the number of systems that generate registration, that eventually generates ballots.

Beyond the Driver's License issue, it's everything. Sign up for public assistance, get registered to vote. Sign up for state benefits, get registered to vote. Sign up for a state id, get registered to vote. Sign up for state college, get registered to vote. Sign up for a grant, get registered to vote. Sign up for unemployment, get registered to vote. Sign up for any state system and get registered to vote. Get married, change names,

change addresses, etc, that's how the voter rolls expand and that's how the massive distribution of ballots is created.

The corrupt states and federal government through DHS and the DOJ, then fight against anything, any effort, any process, that would purge voter rolls or fix incorrect voting rolls. To use the new electioneering system, the system operators need ballots created, they no longer need votes. They need ballots.

Downstream from this process that's where you find the "ballot submission assistance" programs. This is where the local community networks, regional activist groups and widespread community organizers come into play. Instead of advertising or the previous electioneering systems around candidate promotion and Get Out The Vote (GOTV) efforts, the majority of donations to the DNC are now used in the ballot assistance programs.

Keep in mind, the origination of the ballots starts with expanded voter rolls. The rolls contain the registry status of people, regardless of their accuracy or inaccuracy.

I recently asked **Catherine Englebrecht** founder of [True the Vote](#) the following question:

*Give me your best guess. Can we vote in large enough quantities to beat the DNC ballot creation system currently underway using illegal aliens?*

Here is her response:

"Yes, but we need three things:

1. No polling place left unmanned.
2. Eyes/Cameras on drop boxes
3. Courage to fight

My team is working nonstop on #1 and #2.

#3 is the most important.

**We can do this."**

Keep fighting.

Shift that to America First Legal. They seem better positioned for getting the kinds of results in cleaning up the election of fraud and corruption.

Simple questions like “why do we even have electronic voting when other countries stopped using them because of fraud?” Or how about “why is the federal executive branch sending out states voter registrations out to illegal aliens?” SCOTUS ruled the federal government cannot get involved with how the states run their elections. And yet, we have this?

America First Legal seems like a more direct approach to this and many other problems.

If electronic voting is already approved there is no way it is being replaced in this election cycle. Lawfare used the power of massive lawsuits against those who challenged Dominion, and some big wins put the squash on vote process reform in many areas. Key counties that cheated the vote in 2020 are poised to do it again. Sadly we have to massively overwhelm the polls with votes to have any chance against this evil.

Here's the most recent video clip of Jovan Pulitzer I've seen (2 min.):

+ 10,000 illegal aliens, including murderers, rapists and pedophiles using the same exact Social Security number voted in the Arizona General 2020 election.

And contributing to a \$1.7 trillion TRAITOR'S fund set aside for bribery, racketeering and money laundering.

And, here's a recent interview of Mr. Pulitzer — where he explains exactly what happened in Arizona. This interview is 2 1/2 hrs. in length — so perhaps good to listen to 'in the background'.

Electronic voting machines and anything mailed in is too risky.

We should mandate paper ballots and in-person voting only.

"What we found was disturbing," Halderman said in a [June 2017 Senate Intelligence Committee hearing](#). "We could reprogram the machine to invisibly cause any candidate to win. We also created malicious software — vote-stealing code — that could spread from machine-to-machine like a computer virus, and silently change the election outcome."

reporter for Vice News discovers that some Diebold voting machines that will be used in the 2016 election are still running outdated versions of the Microsoft operating system.

Vice interviews University of Michigan computer science professor [J. Alex Halderman](#), who says the U.S. is "painting a bullseye" on its election system by using antiquated touchscreen voting machines.

After the 2020 steal, I wondered about other elections. I think they tried it in 16, but they underestimated how truly bad a candidate hillary was, they didnt cheat enough. Then, I thought about romney-obummer. I have come to the conclusion the mittens barely beat obummer, but they came up with enough votes to slide him in. Dick Morris was a brilliant political analyst, but he missed romney-obummer....or did he? Morris left major tv for a while after that and hung his head in shame, but....was he wrong?

Republicans must pass the Save Act, or go home and cry yourself to sleep. Non citizen Illegal Migrants are getting the right to vote, being pushed by crooked Democrat Politicians who are not being stopped by an equally dishonest Justice Department. Our whole voting system is under siege. Harmeet and David, go to court and get this stopped, NOW. The Dems can't win on their policies, the only way they can win is to CHEAT. They do it at every level of government, and they do it well. That's how they get an incapacitated moron like Joe Biden elected. Get tough RNC (Michael W!), Speaker Johnson, and all State and Local Republican politicians. The Justice Department is CORRUPT and won't do a thing to help. They have no shame! All I can say is that if I'm elected President, we will pursue Election Fraudsters at levels never seen before, and they will be sent to prison for long periods of time. We already know who you are. DON'T DO IT! ZUCKERBUCKS, be careful!

The democrats need new names and addresses for the fraudulent ballots, hence 17.5 million illegal aliens, who get money and voter registration, which is illegal in most states but is done anyway, enforcement of the law. It's all part of the complete fraud being pulled off in front of our faces.

I was once courted by “Conservative Inc.”

Until they realized they couldn't use the platform I built, as relatively small as it was, to create a “limited hangout.”

I won't back ballot harvesting, early-voting, or feign ignorance on the catastrophic dangers of using rigged machines.

Because you get what you work toward. And I will not work towards perfecting a system that rewards cheating. I will only work towards a system that embraces honesty and transparency, and provides stability in our elections for generations to come.

Yet, every single show that has significant reach has adopted the RNC's playbook to pretend rigged software and DHS sabotage at a nation-state level doesn't exist.

The same RNC that banned Tina Peters from attending their convention next week.

That banned Joe Oltmann.

That banned me by refusing to provide press credentials to cover the event on behalf of FrankSpeech/Lindell TV.

"Conservative Inc." remains willfully ignorant about the rigged election machines 4 years after the 2020 lead up.

I did an interview a few weeks ago with a very well known conservative, with huge reach. Apparently, he got the memo and the interview was canned.

I haven't cheered for, or endorsed any popular conservative politicians that failed to go on the record and say out loud 2020 was rigged and stolen. This won't change.

You don't deserve a leadership position when you have failed to acknowledge the biggest crime in our nation's history.

I remain steadfast in my support of Trump because justice requires he be restored to the office stolen from him.

But with all the celebrity conservatives and politicians that position themselves around Trump—that use him—and truly don't care about fixing our elections long term, it is hard to get up each morning, stay on point and advocate for the truth with so many doors slammed in the proverbial face.

Yet, this channel will continue to beat the same ol' drum.

No rigged machines and fake ballots.

The J6ers are heroes, and deserve to be exonerated, pardoned, and celebrated.

Our nation needs to repent to God Almighty and welcome Christ back.

It is rigged. 100% confirmed and only possible because DC is running it. Which is why giving up is not an option for survival. It just buys a little more time to pretend.

wouldnt take it personal. sometimes just thinking you could lose after all we have been through is to much to handle.

not preparing for this possibility, creates the nightmare of the 'day after the election is called' thinking what do we do now.

the proof is if they did it just once, they can do it again. i dont think losing the election is the end either, due to the sunlight on everything. I think it is the start of confrontation with an abusive power that has no legal foundation.

A cheat this fall would cause a solid move to that other "b" box.

The question is whether the pathetic little cabal of The Powers That (Should Not) Be at the top recognize that they too would be in personal jeopardy if they let it get that far. And they don't have to.

They are cowards one and all – so let's pray that at least a few of them also wake up to non-pretending soon...

Maybe their closely held cheat operation may fail simply because enough key minions suddenly decide they'd be better off vacationing outside the USA in November. Cowards. You never know.

What you are most likely referring to when you said frightening..... is the flooding of our border to exploit this corrupt loop hole at the expense of every safety measure.

women hurt or worse. children kidnapped or worse. homeowners being invaded.

Citizens shot or ran over via DUIs.

Gangs getting more powerful because of the blind eye to them and their logistics, while putting Grandma in jail for being pushed through a door then walking behind capitol police through a building.

Look at what happened to those who fought the 2020 fraud? Look at what happened to those who complain about sex literature in elementary schools and drag-queen story hour? It's unbelievable! What's the end-game?

you fight it by doing j6 in 2020 to demonstate what cant be done (so people dont waste your time coming up with ideas of going to DC to protest), and to put light on the fact that it has to be done local (to show people that you can pressure your local and you cant pressure people in DC)

The country appears to be primed to go through a brief confrontation from average citizens (grandfathers, grandmothers, men, women) due to j6 happening and the retaliation the STATE did because of it...

And those average normal citizens have been trained to see that it cant be done through watching others (voting, or protesting in DC) or reading about others saving us.

The reality is that this must be stopped at the ballot creation stage. It may be able to be stopped after that if we can disrupt the collection and filling

out stage, but once it gets to the scanning and counting stage it is too late. As much as I respect Catherine Englebrecht, I believe her efforts are misdirected and will fail. The fraud has to be stopped before the ballot boxes and voting polls.

How do you stop a legal process of sending a ballot to a registered voter? her technique appears to be get high numbers of vote to make whatever steal they do more obvious. and it also appears to have people watching on election day to tell others of the stealing to ignite the anger of the country.

seems smart. j6 had to happen, but it would never be plausible to do it twice. pressure on local people to fight for you or lose their job seems to be the goal (using all the fraud information and evidence and the fact that they did it again)

The Democrats in their hubris thought they could drag sleepy Joe over the finish line one more time and really painted themselves into a corner. Every move and option available to the DNC risks alienating large swaths of their party and shining sunlight on an unfair process for the rest of America to see.

Everyone here knows the IC gets what the IC wants, so whatever path is chosen for the Dems will be sufficiently propped up with leaks and insane levels of narrative engineering "to save our democracy"

That being said, I can't help but feel like the pendulum is swinging back in our direction and the Democrats really overplayed their hand. It won't be easy, but I see light at the end of the tunnel.

most work in industries that are foreign to us. They get news from comedy. They hate the word Trump. They hate anyone that doesnt say they hate Trump (and they bring it up to probe people). They like the idea of stimulus checks and support of gay rights and denigration of caucasions.

They could care less if Biden was dead in a chair and won and ran the country for eternity. They just dont want you to win anything. thats it. They dont need a great candidate or to even know who is running.

They aren't necessarily bad people. Its just their beliefs dictate if someone like us should live or be isolated/harmed/etc.. and our beliefs are based on the individual being raised up and having their own possessions.

You can man drop boxes all you want, but no citizen has the right, as I understand it, to prevent ANYONE from dropping hundreds or more (if they have them) ballots into those boxes.

It's legal in many states for others to take ballots to the boxes.

You KNOW THE ONLY WAY TO STOP THE USE OF THIS TACTIC? Make sure the ballots can't be read. How to do so? Lots of ways. Is that legal? Of course it is **not** legal.

However, that is the ONLY WAY TO STOP IT.

So either you want justice or you don't. You want the field level or you don't.

We always remain the kid on the playground who is used to being bullied around. He keeps trying to do what his teacher and his mother tell him to do. Tell the authorities. Try to talk to the bully. His father, on the other hand, gives him a dose of the truth: HIT BACK. Kick BACK. DEFEND YOURSELF. Even if the other guy manages to twist your arm, make you bleed, if you hit back you will likely give him some hurts as well. Bullies don't like that.

Word will spread that if you want your ballot read, take it to the precinct and drop it off or just vote at your precinct.

I appreciate all the GOP people who are involved in trying to pass laws in the legislature which improve the chances that there will be little if any voter fraud.

I also live in the real world where legislature in Dem states will not give us those law and judge will pay no attention to evidence of stolen elections: "You don't have standing. Get lost."

Let's be real about this.

IN the meantime, every person in the USA needs to be told and advised of the tactics that will be used. They need to be encouraged to rat others out.

Mostly, every American voter needs to KNOW WHY JOE LET THOSE MILLIONS IN .

If you really want to round up all the illegal aliens, and give them the boot, then just put a bounty on their respective heads.

\$6,000 per head or \$10,000 per family.

They will self deport like no one has ever seen.

Actually the bounty on illegals used to be less than \$5 back in the 70's. Local law enforcement could round em up if they had time. A more modest amount like \$100 or so each would result in a bountiful harvest.

The real problem would be housing, institutional feeding and transporting of the hundreds of thousands who would be easily apprehended in the first few weeks.

The Republicans need to monitor the absentee ballot request and the actual mail out process BEFORE the ballots are sent out especially in the several Democrat run election districts in Wisconsin, Michigan and Pennsylvania. Watching the dropboxes is a useless placebo simply because it proves nothing and the judges won't even look at the video evidence!

In Wisconsin every absentee ballot must be requested in writing by a registered voter and mailed to the actual address of the voter...pretty easy task for Republican observers to monitor and insure that only those ballots are mailed out!

its because a new power couple wants to hold the reigns. their spat I dont think has to do with anything we think or could do. We are irrelevant to them. They will steal and inprison anyone that has a problem with it...

this positive thinking thing is dangerous. I always thought the encouraging to vote and making it harder for them to steal was not to win, but to make their steal so obvious the Country revolted.

“this positive thinking thing is dangerous.”

Yes. You are black-pilled. Just give up then.

Many of us are still fighting. And we are winning this in the end.

We are still fighting also, but with the intent to force the steal to be obvious. not to win (that would be great), but to make it impossible for people not to foam at the mouth the day after the steal if it occurs (because of the max voting that made the steal obvious).

positive thinking meant – ‘we are gonna win, dont say we aren’t’ type of talking. no offence at all, we both are doing the exact same thing except one believes in the possibility of being stolen from again.

so both fighting together.

Yes.

The people who come here and preach that positive thinking is “dangerous” (ha ha) seem to be under the illusion that Treepers can’t walk and chew gum at the same time.

Think positively...  
And act locally...

The Powers That (Should Not) Be care only about the ones in the swing states.

Their current problem is that PDJT keeps opening up **more** swing states... 🙄

There's a LOT going on in this area. Scattered stories which all need to be collected, validated and compiled. The executive branch has been sending states' voter registrations out to illegals imported and distributed around the country. To what extent is the states' governments colluding with the

federal government? Is the federal government printing these states applications on their own or are the states cooperating with this illegal effort?

This practice is a perfect example to test SCOTUS's resolve that the federal government cannot interfere with how states run their elections. (remember the SCOTUS ruling where they ignored several states complaining about other states cheating?) Here we have the federal government getting involved in states elections by distributing voter registration forms to illegal aliens and likely even violating those states' laws.

But there's more of course.

If only we had a "Sundance level" person in media and in the legislature. These things need to be made clear and easy to understand. America-first legal?

True the Vote has software in place where you can check your country voter rolls. I setting aside time this week to look at my small county, and then

reach out and help those in the larger countries. I believe in Georgia you must be a resident of your county to access your county rolls.

Determining who is legal is probably a difficult thing to do. I believe the key is the physical address, and you need one in Georgia. If it's an empty field, a UPS store, or 40 people living at the same place, there's probably fraud.

I'll let you know how well it works.

I encourage everyone help and/or send a check to True the Vote.

We can do this!

MAGA 2024!

You'd do better welding ballot boxes shut.

Walk your dogs, pick up after them and dump it in the ballot boxes. Nobody will want to count those.

Omega4America has an even better way of cleaning voter rolls and stopping ballot manufacturing with their Fractal technology. This needs to be used in every state to make sure all ballots are cast by a legitimate voter.

This went on in California for years. Sometimes, the party would create ballots for people who actually were citizens. When they went to vote on election day, they were told they had already voted.

Kudos on the Elon retweet, Sundance! Your explanation is clear but not hopeless. I hope this becomes a primer for everyone who follows Elon on X.

This is why I NEVER believed that there is going to be another nominee other than Biden(unless he passes away from an illness.)

The democrats would have a cabbage patch doll (other than Biden) as their nominee because they count on ballots not actual American citizen voters.

They DON'T need the American people.

Democrat party Tyranny to destroy the United States is ALWAYS achieved through FORCE.

Sundance,

Why is the NJ GOP pulling funding for ballot harvesting and will the RNC step up to bat and pay for it? President Trump is currently polling ahead of

**FJB in NJ. That state has 14 electoral votes. WTH is going on? This is infuriating.**

“Is the NJ GOP Giving Trump the Shaft? Grassroots Says Party is Blocking Funds to Ballot Harvesting Group in Order to Save Money for 2025”

**Excerpts:**

The PAC, Fix Jersey Now, says that while they were presenting their ballot harvesting plan during a June 24th Microsoft Teams video meeting, they were told by RNC staff that the NJ GOP is focused on getting Jack Ciattarelli elected in 2025 instead of focusing on a Trump 2024 victory in the state.

Jack Ciattarelli, 62, is a former New Jersey state representative, a Never Trumper, and the New Jersey Republican Party’s failed 2021 nominee for governor.

The NJ GOP “is blocking resources now so they can instead be used for next year’s governor race,” says Mick Spadea, the CEO of Fix Jersey Now.

NJ GOP stupid. If they want Jack Ciattarelli to be governor in 2025, they need to support President Trump in 2024. 😏

There’s a possibility that if President Trump does not win in ’24, the jig is up.

Funding won’t be an issue if he wins, if not – there might not be a “who cares?”.

Since we just got PT new Contact with America, maybe it’s appropriate to put out the new Leftist Contract with America as well.....

The Left's Contract with America:

No borders, allow as many illegals in as possible and have taxpayers cover all their expenses

Destroy the middle class and create a society of only elites (leftists) and surfs (everyone else)

Ignore all debt and deficits and spend / funnel as much money from taxpayers to leftist organizations as possible

Ignore all God created and plentiful natural energy resources and go exclusively with expensive and inefficient green energy solutions and charge people 50%-100% more

Increase taxes on all people by implementing out of control inflation caused by purposeful, uncontrollable spending.

Make America a service only economy and ship all good manufacturing jobs to China and 3rd world countries thus making imported goods more expensive for the middle class.

Continue to undermine all countries we disagree with politically and use non stop wars to bring down those who question or don't go along with our ideology

Restrict any free speech we disagree with and pull back the God given freedoms all human beings were born with along with those provided specifically in the US Constitution.

Weaponize Government Agencies to attack and persecute any political party or individuals we disagree with regardless if our actions violate the Rule of Law

Ignore the rule of law and release as many criminals, including multiple violent offenders back into local cities and towns to reign down more violent crimes on the people.

Eliminate gas powered cars and trucks, gas stoves, gas furnaces regardless of the additional cost and hardship on the American people.

Allow any man who thinks they are a woman to compete in all women and girls sporting events thus destroying all prior women records for the sake of pleasing that man who thinks he is a woman. Oh and allow all of these so called women to shower with any girl or women athlete.

Move to a US Central Bank Digital Dollar thus eliminating all cash so we can track all purchases of every American 24/7 and use this data anyway we like, including passing this data on to our best friends at the IRS and DOJ.

Support any and all terrorist groups who wish harm to any conservatives, Christian's or Jews.

Eliminate all checks and balances on national and state elections where all voter rolls, all voter identification are eliminated thus allowing us to put any name on a ballot as many times as we wish and put them all into drop boxes.

Weaken our military by pushing out our very best via forced vaccinations and idiotic EDI and woke policies that do nothing to get men ready to fight, ferociously as needed to win wars.

Constantly use the race card even when it's not valid or true in order to divide people vs uniting them as united people are harder to control.

Slogan – DAFW – Destroy America from Within (fast)
