There's a thick cloud of mystery and suspicion hanging over the Trump assassination plot. To say conspiracy theories are flying would be a wild understatement. They are off the hook at this point. But can you really blame people? For starters, many have understandably lost faith in our lying, scheming government, thanks to its unscrupulous shenanigans against President Trump and the American people. The entire COVID debacle was just the final nail in their coffin. Plus, too many things just aren't adding up regarding Trump's assassination plot. The story we're being told reeks like a fish market in the middle of July. And now, it's gotten even fishier.

This latest move by Dems has many thinking that they've got a lot to hide.

According to Congresswoman Lauren Boebert, Biden's henchman Alejandro Mayorkas has done a complete about-face regarding briefing the House Oversight Committee on the breakdown in security during the attempted assassination of President Trump. As Lauren Boebert puts it, what on earth are they hiding, and is this a sign that they might be trying to hide "guilt" involving the plot to kill President Trump?

It's certainly a reasonable question at this juncture.

**Lauren Boebert**

At the direction of Mayorkas, the Secret Service has now gone back on its promise to brief the House Oversight Committee on the attempted assassination of President Trump.

At a time when every single American wants to hear from them, they won't show up.

What do they have to... [Show more](#)

There's still so many unanswered questions, but one thing we do know is that the Bidens' good buddy, Kim Cheatle, the director of the Secret Service, didn't properly secure the rooftop because there was a "slope," and she didn't want an agent to fall and hurt himself.

Kyle Becker   
@kylenabecker · [Follow](#)

NEW: Secret Service director Kim Cheatle, good friend of Jill Biden and the new face of America's competency crisis, didn't post snipers on the roof where Trump was shot at because it was a sloped roof and she was afraid someone might slip and fall.

You can't make this stuff up.

Why hasn't this woman been fired? She's clearly not up to the job, or maybe she did exactly what she was supposed to and left that area unsecured for a reason?  
Well, for starters, she might not be fired yet because Joe Biden doesn't even remember who he appointed to the position.

BIDEN: "Oh, I've heard from him."

The Director of Secret Service is a woman.

The story about the shooter just keeps getting weirder. Now, we're supposed to believe that he was wandering around with a rifle and a giant ladder, completely undetected.

[MJ Truth Ultra:](#)

The FBI Just Released More Details Regarding the Trump Assassin

- he went to a shooting range where he was a member, and practiced firing, the day before
- the day of the rally, Crooks went to a Home Depot and purchased a five-foot ladder  
— does that look like a 5ft ladder to you?
- He visited a gun store, purchased 50 rounds of ammunition
- Crooks drove his Hyundai Sonata about an hour north, joining Trump's rally.  
— He parked the car outside the rally, with an improvised explosive device hidden in the trunk that was wired to a transmitter he carried.
- Investigators believe, he used his newly-bought ladder to scale a nearby building, and opened fire on the former president.

SO..... the dude was carrying a ladder, a rifle, and NOBODY on Trumps Security detail saw him?

Just a photo of the @FBI destroying the crime scene where the shooter opened fire to assassinate President Trump.

Unreal.

 Readers added context

They are washing away the blood/ cleaning a released crime scene.

After several days there would be no relevant evidence left that hasn't been documented and taken into account already. In addition there is no doubt about who shot the person on the roof or who's blood this is

Revolver's own Darren Beattie actually asked the million-dollar question recently. It's not so much about the slopes or why the would-be assassin wasn't engaged sooner. The real question everyone should be asking is: how did the shooter know that spot would be free?

**Darren J. Beattie**    
@DarrenJBeattie · [Follow](#)

The question isn't just how in the hell that roof 150 yards away from Trump was unguarded

The question is also how this gunman knew that it was unguarded

[Revolver:](#)

There's a ton of mystery surrounding the Trump assassination attempt, and lots of folks are zeroing in on one big thing: a rooftop just 150 yards from where Trump was speaking was left totally unguarded. Say what? Obviously, it's a huge oversight, and we definitely need some answers. But Revolver's own Darren Beattie, the same guy who blew the lid off the J6 "Fedsurrection," is digging into the real head-scratcher here.

As Darren puts it, it's not just about why that spot was left open and unguarded. The real kicker is, how did the shooter know that the rooftop would be empty and totally ignored? How did the shooter know that the rooftop wasn't crawling with cops, snipers, or Secret Service? Why did he choose the only unguarded spot around? Was it just blind, dumb luck, or something more sinister? It's definitely something to think about, folks.

You can read the entire compelling piece here:

[Darren Beattie just asked the mind-blowing million-dollar question about the Trump shooter...](#)

There's a ton of shady stuff happening, and there are too many unanswered questions. So, it shouldn't surprise anyone that the regime, hell-bent on punishing and destroying their political enemies, is now clamming up. The nation just watched a former President of the United States get shot on live TV, and everyone—except for the US government—wants answers. There's something very wrong with this picture.

Notice how none of the army of incompetents in this Administration ever gets fired? This shows a complete lack of leadership and incompetence at the very top. Very sad that We The People are so underserved by our public servants.

Do not attribute to incompetence that which is purposely evil.

America just was .5 inches away from Civil War.

A war this evil regime has been trying to instigate for over 3 years

Only the work of God restrains us and only His work saved President Donald John Trump.

A lot of people were always quietly on the side of the eventual winner; they just did not know who was going to be that winner.

So they had to wait to show support.

Actually a few did already leave and blow the whistle over the last few years.

I would expect the rest are waiting to see who wins before they speak up.

You can be a man who is not totally bad, but very weak and compromised; but that does not make you a fine Hannity fan either however.

As soon as Trump wins, and he kinda already has if he can keep dodging and weaving, then we will wake up to a world in which everyone was always secretly on the side of the winner.

Welcome to a color revolution.

1. Semi-autocratic regime: Establish a regime that is not fully autocratic, allowing for a perceived opportunity to criticize the incumbent leader as "fascist" or authoritarian.
2. Appearance of an unpopular president or incumbent leader: Create a situation where the leader is widely perceived as unpopular or ineffective, making it easier to mobilize opposition.
3. United and organized opposition: Foster a united and organized opposition movement, often comprising groups like Antifa, Black Lives Matter, or other activist organizations.
4. Mass media and social media campaigns: Utilize mass media and social media platforms to amplify opposition voices, spread dissenting narratives, and create a sense of urgency and crisis.
5. Foreign influence and support: Leverage foreign influence and support from organizations or governments sympathetic to the opposition cause, potentially through funding, training, or diplomatic backing.
6. Occupation and protest: Organize occupations and protests in strategic locations, often with a focus on symbolic sites like city centers or government buildings, to demonstrate popular discontent and pressure the government.
7. Election manipulation or boycott: Manipulate or boycott elections to create a crisis of legitimacy, allowing the opposition to claim victory or justify further protests and demands for regime change.

Goes back to at least 1950's and 1960's when the US and Britain forced the Shah of Iran back into control of Iran leading to the hostage crisis in 1979.

Probably way further back than that and we just stole the ideas from history.

Iran hates us for a reason.

You want a scary planned color revolution look up Operation Northwoods, JFK refused to sign off on it so it is now public information and likely one reason he was assassinated. Here is the Wiki article on it. <https://en.wikipedia.org/wi...>

There is nothing new under the sun and the leftist types publish what they do, we just need to pay attention.

The problem is stopping the lefts actions, the latest color revolution was Ukraine and we really do not need that here, or anywhere.

The left's Very Fake News has now been dealt a death blow with the recent outing of Dementia Joe's pathetic mental state, and Zelensky has now agreed to talk peace with Putin since even he knows that President Trump will soon be back in the Oval Office and putting an end to his diverting of our "financial aid" to the Ukraine into his own offshore bank accounts.

Trump is already having a major effect on stemming the left's lies and corruption --- and he's not even officially POTUS yet! Of course we still have to get him elected in November, so let's not ease up on getting out the vote! #FJB #MAGA #VOTE #Trump2024

Yes, there were plenty of reasons for the spy agencies of numerous countries, including our own, to recruit a lonely outcast like Crooks, to take out Trump--

The biggest tell for me, was when Biden told Trump, as Trump mentioned in the secretly recorded phonecall to RFK Jr, "Why did you turn your head to the right?"

That was a tell, just like when Biden 'accidentally' said 'we have the biggest voter fraud organization in history' --

Tried to groom me for who knows what... so I purposefully failed at every task they asked of me ... they left in a huff " you're lazy " was their parting gift ...

Figured that was easier than telling them they both stunk of Federalized pork from the door.

And I got the opportunity to keeping them both away from someone else they might have Victimized for a few months.

Never saw or heard from either ever again.
