---

Text of the proposed New Zealand referendum to [#NZExitsTheWHO](https://rumble.com/v5chsp9-interview-with-kirsten-murfitt.html):

*“Do eligible voters wish for the Government to terminate New Zealand’s relationship with the World Health Organization (“WHO”) due to serious conflicts of interest between “WHO” and its private partners?”*

---

**How does a New Zealand Citizens Initiated Referendum work?**

Any New Zealand citizen can petition for a referendum to be held. This is known as a Citizens Initiated Referendum”. For one of these to be held, at least 10% of eligible voters must sign a petition supporting the proposed referendum question.

1. A person submits a proposal to the Clerk of the House of Representatives asking them to promote a referendum petition. ***(Completed: Kirsten Murfitt has already submitted the text listed above and she has paid the \$604.10 application.)***
2. The Clerk advertises the proposed question, which gives the public the chance to have their say on the wording of it. This can take up to three months. ***(THIS IS THE NEXT STEP IN THE PROCESS - As of August 24, 2024, the Clerk of the House of Representatives has not yet published the proposed text of the Citizens Initiated Referendum for the public comment period to begin. Hopefully, this will happen within the week.)***
3. The Clerk decides the question’s final wording and approves the form for the collection of signatures.
4. The petitioner has 12 months to gather enough signatures (at least ten percent of eligible voters) supporting the question, and then deliver the petition to the Clerk.
5. If the petition is compliant, the Speaker presents the petition to the House of Representatives. If there aren’t enough signatures the petition will lapse (although the petitioner can resubmit the petition if they gather the remaining number of signatures within two months).
6. The Governor-General sets a date for the referendum within a month from the date the petition was presented. It must be held within a year of the presentation date unless 75 percent of MPs agree to defer it.
7. The referendum is held and the result is declared.

---

Once Step #4 begins the organizers of the drive to collect signatures for the referendum will need to obtain signatures from at least 10% (367,377) of the 3,673,774 registered voters in New Zealand within 12 months.

Once the required signatures have been collected, the referendum will be placed on the ballot for the people of New Zealand to express their opinion regarding whether or not they want New Zealand to [#NZExitsTheWHO](#).

**Benefits of starting a referendum can include:**

- raising awareness about an issue
  - shifting or consolidating public thinking around an issue
  - initiating or building momentum toward a change in policy or in how services are delivered
  - proposing a new law or influencing one that's being considered
-

**Kirsten Murfitt** ✓  
@MurfittTauranga

**My application for a Citizens Initiated Referendum to terminate our relationship with the WHO has been accepted by the New Zealand Government.**

The agreed wording for the referendum question is:

*Do eligible voters wish for the Government to terminate New Zealand's relationship with the World Health Organization ("WHO") due to serious conflicts of interests between WHO and its' private partners.*

Once I pay the application fee the Clerk will advertise the wording for three months. Then I must obtain the signatures of 10% of registered voters in New Zealand. There are approximately 3,673,774 registered voters in NZ, so we need at least 367,377 signatures within the statutory 12-month timeframe.

If you can help with funding, please contact me at [admin@kmlaw.co.nz](mailto:admin@kmlaw.co.nz).

There is a \$50,000 spending limit on promoting the petition, so I need a lot of volunteers. We have three months to get organised, so I am calling for volunteers for the following roles:

- 1) Steering Committee.
- 2) Fundraising Committee.
- 3) Creative People Committee.
- 4) General Volunteers.
- 5) Volunteers who are willing to go out into the community and collect signatures.

If you are interested, please contact us at [admin@kmlaw.co.nz](mailto:admin@kmlaw.co.nz) and put the type of volunteering in the subject line.

If you are volunteering for the roles through 1 to 3, please send a brief bio.

Thank you to all those volunteers who have already reached out after my previous post.

**Someone once said, “Let’s do this”, so let’s do this back to the unelected and undemocratic bodies that influence politics and policy in our beautiful country. We owe it to the future generations.**

## FAQ

**Who is eligible to sign the Citizens Initiated Referendum?**

Registered voters in New Zealand may provide their signature to call for a referendum (vote).

**Will it be possible to provide one's signature online, or will it only be possible to do so in writing?**

Only written signatures will be accepted.

**When and how will the Citizens Initiated Referendum be made available for signature?**

Stay tuned. We are very early in the process (Step #2 - see above).

**Where will I be able to comment on the proposed text of the Citizens Initiated Referendum?**

As of August 24, 2024, the text of the Citizens Initiated Referendum has been submitted, but the New Zealand government has not yet officially published it. It should soon be made available to the public later this week on the web page listed below:

<https://www.parliament.nz/en/get-involved/have-your-say/seek-a-referendum/>

**How can I get involved and help?**

# THE TOP TEN REASONS WHY THE MEMBER NATIONS SHOULD LEAVE THE WORLD HEALTH ORGANIZATION

**1. CONFLICTS OF INTEREST AND CORRUPTION:** The WHO is infiltrated by Big Pharma, Big Money, and Big Foundations and has been corrupted by financial donations from corporations and non-governmental organizations which influence WHO policy in ways that benefit the corporations and the organizations through a money-laundering and influence-peddling scheme of massive proportions. The WHO follows the dictates of its so-called "relevant stakeholders" while ignoring the needs and desires of "We the People."

**2. MISGUIDED FOCUS ON VACCINES:** Influenced by vaccine manufacturers and vaccine pushers such as GAVI and Bill Gates, the WHO has lost sight of its core purpose of promoting health and has overemphasized the use of "vaccines" which have not improved health, but have actually degraded the overall health of billions of people around the world. Best practices designed to improve health are ignored in favor of actions ultimately designed to profit Big Pharma.

**3. BUREAUCRACY AND WASTE:** The WHO is dominated by bureaucrats and technocrats that are beholden to big Pharma, not knowledgeable health professionals that are dedicated to caring for patients and helping them maintain and improve their health. The WHO wastes enormous amounts of money on salaries for their bloated staff and travel expenses to such a degree that actual health related programs are chronically underfunded.

**4. FEAR-MONGERING:** The WHO has sounded the alarm and wasted time, effort and money by declaring FAKE Public Health Emergencies of International Concern (PHEICs) such as Monkeypox and Swine flu (H1N1) while failing to act swiftly or effectively to address Ebola and COVID-19.

**5. DANGEROUS RECOMMENDATIONS:** The WHO has made horrible and corrupt recommendations in support of the expanded use of pharmaceutical drugs such as opiates that have been responsible for untold millions of unnecessary deaths.

**6. FALSE MODEL OF HEALTH:** The WHO is overly dependent upon the petro-chemical based pharmaceutical, medical, hospital industrial complex which practices allopathic medicine that is designed to alter and mask symptoms rather than actually improve health. The WHO does not offer a forum for clinical and scientific discussion or debate and clearly marginalizes natural healing modalities

**7. POWER GRAB:** The WHO is blatantly seeking to increase its power by pursuing a legally-binding proposed "Pandemic Treaty" and proposed amendments to the International Health Regulations.

**8. MISTAKES:** The WHO has repeatedly demonstrated that it is absolutely unwilling and incapable of learning from its mistakes of the past and is destined to continue wasting money while providing horrible advice based on the corruptive influence of Big Pharma and Bill Gates.

**9. OUT-OF-TOUCH:** The delegates to the World Health Assembly are unelected, unaccountable, unknown to the people they purport to represent and completely out of touch with the needs and desires of the people of their respective nations.

**10. SECRECY:** The WHO operates in secrecy and lacks transparency. Far too much of what is done by the WHO remains hidden. What we know is horrible. What we don't know may be monstrous!
