CHD quoted me in this article:

Psychotherapist [Joseph Sansone, Ph.D.](#), author of the “[Ban the Jab](#)” resolution adopted by 10 Florida counties, supported the study’s call for a moratorium on the COVID-19 vaccines.

He said:

“COVID-19 and mRNA nanoparticle injections are biological and technological weapons of mass destruction. It is time for the medical community to tell the truth and admit they were lied to like everybody else. These injections harm those injected and those not injected, via the shedding of this technology.

“All mRNA nanoparticle injections need to be prohibited immediately and there needs to be a thorough investigation into the criminals behind this attack on humanity.”

COVID-19 vaccines pose a 112,000% greater risk of brain clots and strokes than flu vaccines and a 20,700% greater risk of those symptoms than all other vaccines combined, according to a [peer-reviewed study](#) that calls for a [global moratorium on the vaccines](#).

The study, published last week in the International Journal of Innovative Research in Medical Science, found reports of 5,137 cases of cerebral thromboembolism after [COVID-19](#) shots over 36 months. This compares to 52 reported cases following flu vaccination and 282 cases for all [vaccines](#) over the past 34 years.

According to the study, this represents an “alarming breach in the safety signal threshold concerning cerebral thrombosis adverse events” following COVID-19 vaccination.

The study’s authors — independent researcher Claire Rogers, obstetrician and gynecologist [Dr. James A. Thorp](#), independent researcher Kirstin Cosgrove and cardiologist [Dr. Peter McCullough](#) — used data from the U.S. government’s Vaccine Adverse Event Reporting System ([VAERS](#)), for their analysis.

I am quoted later in the article. [Read the Full Article Here](#)

Is it any wonder that injecting toxic matter, such as, graphene oxide, etc. directly into the bloodstream would cause severe problems. What is wrong with the thinking of supposedly intelligent medical doctors to go along with this? Parents didn't think to ask doctors what items were in the shots that their children were receiving. I was one of them. We trusted the doctors. Didn't doctors know that aluminum, mercury, fluoride, formaldehyde, etc were toxic and didn't belong in the bloodstream? The end result: The lowering of the mental and physical health of every child who received them in order to attend school..

Laura Kasner Clotastrophe Nov 9 ♥ Liked by Dr. Joseph Sansone

Do these "brain clots" look like the ones being found in the dead and the living?

<https://laurakasner.substack.com/p/the-clots-are-still-being-found-a>

Joe - great that you got a shout out in The Defender!
