George Soros and Indian PM Narendra Modi.

India, an emerging BRICS power, has been targeted by Globalist supervillains and the US Deep State apparatus, in a bid to topple Prime Minister Narendra Modi and put an obedient pawn in his place.

Modi's Bharatiya Janata Party (BJP) has come out accusing the State Department and 'deep state' elements in the US of working with a group of 'investigative journalists' and opposition leader Rahul Gandhi.

Reuters reported:

*"The accusation comes as a surprise as New Delhi and Washington have forged a strong relationship in the last two decades and both have vowed to further strengthen ties despite some differences and irritants.*

*Gandhi's Congress party used the Organized Crime and Corruption Reporting Project (OCCRP)'s articles that 'singularly focused' on the Adani Group and its alleged closeness to the government to undermine Modi, the ruling party said on Thursday."*

The Deep State had a clear objective to destabilise India by targeting Prime Minister Modi. To achieve this, they turned to OCCRP, instructing the organisation to provide material aimed at damaging PM Modi's and India's image.

*“The Deep State had a clear objective to destabilize India by targeting Prime Minister Modi. It has always been the U.S. State Department behind this agenda. OCCRP has served as a media tool for carrying out a deep state agenda.”*

The west wants to topple Modi and have Rahul Ghandi as his successor.

Gautam Adani and seven others were indicted in November for being part of a \$265 million scheme to bribe Indian officials.

OCCRP's articles also accuse hackers in India of using Israeli-made Pegasus spyware to target government critics.

*“The BJP has previously accused Gandhi, the OCCRP and 92-year-old billionaire financier-philanthropist George Soros of attacking Modi.”*

The OCCRP group says it's an independent media outlet, but admits the US Government funding.

*“The U.S. government, while providing some funding to OCCRP, has no say in our editorial processes and no control over our reporting”, it said.”*

The Indian government has been criticized after the U.S. indictment of Gautam Adani, who Modi is accused of protecting.

The country's parliament was suspended multiple times last week as opposition demanded a discussion on the issue.
