With geopolitical tension running high in Europe, every government that dares differ from the Liberal-Globalist establishment emanating its orders from Brussels (and Biden’s Washington) is set to be infiltrated and destabilized – maybe even overthrown – by Color Revolutions or Maidan coups.

Now, everything appears to point in the direction of Slovakia being the next in line for the Globalists to deploy their dirty tricks on.

That's what Prime Minister Robert Fico is saying out loud.

Sputnik reported:

"I can't name names, I can't name the circumstances, but I can say with all seriousness that the Slovak opposition is preparing for a 'Maidan'. The Slovak opposition is preparing to occupy government buildings, will resist the work of the government, will cooperate with foreign forces', Slovakian PM Robert Fico said, commenting on the SIS's (Slovak Intelligence agency) statement about an operation to destabilize the country."

Fico survived an assassination attempt in which a pro-Ukraine radical shot him several times at close range in May 2024.

Today (22), Slovak Intelligence received information about the organization of a 'long-term influence operation' to destabilize Slovakia.

"A group of 'foreign experts' involved in the events in Georgia and the 2014 Maidan in Ukraine are operating in Slovakia with the aim of overthrowing the government, Slovakian PM Robert Fico has said."

“Slovak Prime Minister Robert Fico is doing an important thing by exposing people who were responsible for fomenting coups across Europe and who are currently trying to do the same in Slovakia, Slovak MP Peter Marcek told Sputnik.

‘I am certain that these ‘color revolutions’ are being carried out via US embassies across Europe and beyond’, Marcek said.”
