Police fire off exploding munitions into the crowd without warning on January 6, 2021.

For the last 4 years, Democrats, their media, and the Biden administration have lied thousands of times about who was responsible for the violence on January 6, 2021.

We now know that three things had to happen in order for the violence to take place.

1.) Nancy Pelosi and Mayor Muriel Bowser had to block the National Guard from protecting the US Capitol. Pelosi did this by banning the President Trump's request for the National Guard troops at the Capitol that day. And, then on January 6, Nancy Pelosi stalled in calling in the National Guard until late in the afternoon.

2.) Capitol Police were ready, and eager to fire munitions on innocent Americans peacefully protesting.

3.) Undercover government operatives and cutouts with the FBI, DOJ, DHS, BATFE, Capitol Police, etc. were operating inside the crowd. Ex: Ray Epps

To this day Americans have no idea that the federal agents provoking the riot were uniformed police and government agents. And, the US Capitol Police and DC Metro Police fired unrelenting munitions on the J6 protesters without warning. These actions sparked a riot an hour later.

Investigate J^ released video last year that exposes how innocent Trump supporters were set up that day by their government.

The legacy media has yet to play this video for their audiences.

For the last 3 years, right wing pundits have blamed the J6 riot on federal agent provocateurs.

This video below by Investigate J6 is devastating. It shows police firing on the Trump crowd without warning. This confirms previous reports by The Gateway Pundit and interviews with J6 attendees who reported on the vicious and unprecedented brutality by the police on January 6.

Look at all this early J6 footage @TuckerCarlson could show the world, but won't.

His producer @gregg_re and his team at Fox were given all of this last year. #J6CoverUp

This also plays into the accusations that this was a setup complete with government agents who infiltrated the Trump crowd.

The government turned on the people that day – and the government lied about it for four years now.

What a dark day in American history.
