President Trump held his first press conference on Tuesday after Congress certified him the winner of the 2024 presidential election on Monday.

During his press conference from his home in Mar-a-Lago, President Trump made headlines when he announced he was changing the name of the Gulf of Mexico – to the Gulf of America.

President Trump also told the assembled journalists that he heard there was a second person who died on January 6, 2021 at the pro-Trump protests on Capitol Hill.

Actually, Mr. President, four people died that day, three were killed by police action, on January 6, 2021.

IN MEMORY OF THOSE KILLED ON JANUARY 6TH 2021

American patriots who lost their lives on January 6, 2021. (left to right) Kevin Greeson, Rosanne Boyland, Ashli Babbitt and Benjamin Phillips.

Ashli Babbitt was shot and killed in cold blood by Officer Michael Byrd. Kevin Greeson died of a heart attack. Benjamin Phillips was killed when Capitol Police fired exploding cylinders into the crowd, and he was knocked unconscious, and Trump supporters were unable to revive him. And Rosanne Boyland was gassed, pushed down, smothered until unconscious, and then beaten with a stick by Officer Lila Morris several times as she lay dying on the US Capitol Steps.

Many of the men that helped Rosanne are in pre-trial detention and being held as political prisoners, including Sheriff Ronald McAbee (in red hat).

The Capitol Police also attempted to kill Derrick Vargo when they pushed him off a three-story ledge. He survived with serious injuries.

Now, there is a video from Tommy Tatum that shows Rosanne allegedly shot in the face by police before she was knocked to the ground and smothered and before Officer Morris beat her dead.

In the video, you clearly see J6 defendant Philip Anderson duck as a projectile is shot at him as he was stuck in the crowd of Trump supporters in the West Tunnel.

Philip and Rosanne and dozens of Trump supporters were clearly “stuck” in the tunnel and could not move in any direction. When Philip was able to duck, the projectile, likely a pepper ball, hit Rosanne in the face and knocked off her glasses.

Rosanne then dropped down and was pushed out of the tunnel by police as angry protesters were pushing at them from a different direction.

At that point, Philip and Rosanne were caught at the bottom of a huge pile. Capitol police continued to fire numerous toxic gas balls at the protesters.

Philip and Rosanne both fell unconscious.

J6er Jake Lang pulled Philip Anderson to safety and helped revive him.

Philip Anderson is rescued by the Pro-Trump crowd from the police attackers. This was while Rosanne Boyland was beaten with a police stick by Officer Morris. Rosanne was dead.

Rosanne was not so fortunate, and Officer Lila Morris beat her unconscious body numerous times with a stick. Rosanne was dead.

Never forget what happened to Rosanne Boyland on January 6th. She was murdered by police who then went on to make a career out of lying about how they tried to save her life before smearing her as a drug addict and creating her body. Numerous Trump supporters and eye-witnesses were later charged by Joe Biden's wicked DOJ for attempting to rescue Rosanne Boyland. Even Philip Anderson was charged with a crime after police nearly killed him that day.

Rosanne Boyland was a victim of Capitol Police brutality that day. The legacy news has NEVER investigated her death. Ever.
