Here at Revolver, we cover the stories no one else will—the ones that expose the left's broader agenda, from DEI and the censorship apparatus to the January 6 hoax. But beyond these major battles, one of the biggest schemes we've tracked is the Deep State's shadow operations, orchestrated by one of the most influential puppeteers in the Swamp: Norm Eisen.

If there's a major effort to take down President Trump, Eisen is almost always lurking in the background, pulling the strings. Time and time again, he's played a central role in the left's biggest hoaxes and political warfare, and yet, most people have no idea who he really is—or just how deep his influence runs.

The good news is that President Trump just yanked ol' Norm's security clearance—a huge win for decency and the rule of law.

The bigger question is, why did he have one in the first place? For way, way too long, this unelected Deep State operative has used his insider power to play political games and weaponize our sacred institutions against the American people.

**BREAKING:**

Trump just removed the SECURITY CLEARANCE of lifelong government deep-stater, Norm Eisen.

Who is Norm Eisen?

He was co-counsel for the House Judiciary Committee during the first impeachment and trial of President Donald Trump in 2020.

He also wrote the book, “A Case for the American People: The United States v. Donald J. Trump.”

Norm wont be able to make money with a security clearance anymore, but don't worry. Even though he's been on a government salary for his entire life, he is worth \$3 MILLION dollars.

Now, how did that happen??

Norm, any comment?

Thankfully, part of that reign of terror ends now. But don't rest too easy, because Deep State slimeballs like Norm don't just disappear—they slither under rocks, regroup, and plot their next move.

We've covered Norm's sinister shenanigans from every angle imaginable.

One of Norm's most recent ploys was to try and remove President Trump from the ballot back in 2024. He used his group called "CREW" to do his dirty work, and they started their anti-American quest in Colorado.

#### [Revolver:](#)

As the organization boasts on its website, CREW is responsible, along with a handful of law firms, for bringing the cases in question to the Colorado Supreme Court. CREW might be familiar to Revolver readers for the fact that notorious Democrat lawfare hatchet man Norm Eisen co-founded the organization in 2003 and ran it for most of Trump's presidency, during which time it generated nearly 200 lawsuits against the Trump administration.

Norm Eisen drafted ten articles of impeachment against Trump before Trump's phone call with Zelensky even took place and went on to serve as special counsel in the first impeachment proceedings against Trump. Eisen worked with his colleague on a lawsuit claiming Trump violated the emoluments clause before he was even sworn in. Incidentally, his colleague Joseph Sellers represented Congressman Bennie Thompson in his January 6 lawsuit against Trump, which later became the basis for the second impeachment against Trump and the January 6 Committee report. Indeed, it would hardly be an exaggeration to say that Norm Eisen has been a key architect of nearly every attempt to delegitimize, impeach, censor, sue, and remove the democratically elected 45th President of the United States—all in the name of democracy, of course. Years ago, we first brought Norm Eisen's name to national attention in the context of his work on color revolutions overseas and the fact that he was deploying the same tools as a lawfare operative to undermine Trump that he would use in the State Department to undermine foreign leaders deemed to be adversaries of the United States.

But it wasn't just the Colorado scam, Norm has been working to get rid of President Trump since 2016.

#### [RELATED: Norm Eisen, the rumored architect behind efforts to stop Trump in 2024, just revealed the plot...](#)

Revolver's own Darren Beattie and Tucker Carlson broke down Norm Eisen's ongoing schemes to oust Trump—back before Tucker left Fox News. Darren brilliantly exposed how Norm wasn't just another political operative; he was leading a full-blown color revolution against President Trump and the American people.

Thanks to this latest move—along with so many others—President Trump is actually restoring the so-called “precious democracy” that Democrats have spent years hacking to pieces.

[READ MORE: Dr. Phil shocked when black man says we need more white American babies in the US...](#)

And now, one of the biggest Swamp creatures can no longer cash in on his security clearance. Without insider access, Norm’s going to have a much harder time getting booked on CNN and MSNBC. After all, what good is a Deep State operative when he’s floating in the shallow part of the pool, totally locked out of the deep end?

Mary McCord. When does she get her security clearance yanked? Could it be that the most prolific and nastiest purveyor of unconstitutional, anti-constitutional lawfare and deprivation of rights violations she's been a leading conspirator behind has a husband who works closely with pedophile corrupt fascistic jurist John Roberts atop SCOTUS?

So many worthy security clearance revocations already ordered by Pres. Trump. Why does one of the top demon-spawned forces of evil in the entire world still have her security clearances?

Trap the deep state bastards the same way our military code breakers did at the battle of Midway during WW II. The Japanese took the bait hook , line ,and sinker. It was brilliant !

100%. And it's widely believed that McCord's husband, Sheldon Snook, infamously leaked Alito's Dobbs decision.

Keep your friends close. Keep your enemies closer.

Trust the plan, Mick. Trump has been kicking ass and taking names for the last 3 weeks, doing more in that time than some would accomplish in a year or more. The American people made our decision and sent our guy back to the White House. Now let's let him do the job and throw our support behind him.

Tells me Trump is winning. Obama is being dumped by his more-masculine 'wife', he dines alone, his political clout is non-existent, and he is washed up. Trump had breakfast yesterday with Tiger Woods, got cheers while Tay got jeers, people from Prime Ministers to tech titans come to him at Mar-a-Lago, (IF they are so lucky) and he sleeps with a Super Model. Er, *who* is showing up *whom*? The best revenge, good writer, is living well!

Remember when President Trump ordered John Brennan's security clearance be revoked in 2019? Well, the Deep State Communist bureaucrats simply ignored Trump's order.

Thank God for that!

Now, remove Marc Elias'- another vile DS operative and pal of both Hillary and BHO.

Has Samantha Power's been removed too?

Team Trump needs to go down through a list of all those Demtard operatives who have security clearance and remove it.

I wish he could remove it from Bubba, GWB, and BHO.

At least, he removed Pedo Joe's.

I just wonder: is there any way of knowing (quite legally, of course) if certain powerful and successful DC defense lawyers have been retained? I got a feeling they are going to be very much in demand soon. These people know what they have done. They don't have a pardon. Bet it's a terrible feeling, looking over your shoulder. They KNOW how the game is played.

I guess it hasn't occurred to anyone that Norm Eisen, along with his little lawfare friends like Andrew Weismann, Marc Elias and Mary McCord really aren't very good at their jobs. In spite of all the illegal lawfare shenanigans, Trump is President.....again.

Too bad Norm. You are a true anti-American P.O.S.

Eisen founded Citizens for Responsibility and Ethics in Washington (CREW) in 2003, then later became a chief 'ethics' lawyer for obama.

I'm sorry, but democrats define 'ethical' as anything they can get away with, which so far is just about everything.

Ethics? Please.
