# USAID worked to topple South Korea in addition to Brazil?

USAID has been supporting "A-WEB" since 2014

South Korea is in the fight of its life against the Democrat Party of South Korea.

Massive Rallies are in progress in South Korea to show support for impeached President Yoon of the People Power Party as the Communist aligned Democrat Party of South Korea is losing support but imposing its own martial law on the majority of the population.

Looks like the Dems in the US were using USAID to fund the seizure of the Election System and Process in South Korea by USAID funding of the International Foundation of Election Systems and the South Korean based Association of World Election Bodies. Just like what USAID did to President Bolsonaro in Brazil.

Pay attention to what's going on. America First doesn't let a long standing, close ally like South Korea fall to the Communists, which includes the American Democrat Party and their ATM, USAID.

Any day a U.S. Ambassador to South Korea will be named by President Trump.

The lefty power scheme in the US has been successfully toppled. Now, the dominoes are falling in other directions.

It seems USAID has been used to build up CCP friendly governments in various countries; now, by exposing USAID etc, the revelations will reverberate in those countries and topple the communist influence.

As you said, John, help is on the way.
