Many Americans are just now learning the real story behind USAID. Some had never even heard of this massive organization, while others assumed it was just a humanitarian group handing out grain and blankets to third-world hellholes. Sadly, nothing could be further from the truth.

Turns out, USAID is basically a \$50 billion-a-year slush fund for the CIA.

Maybe it should be renamed to “CIAID.” After all, former State Department official Mike Benz says that USAID is even more powerful—and more dangerous—than the CIA. It operates as a shell organization, posing as a humanitarian group while secretly carrying out some of the most diabolical schemes, from regime change abroad to political manipulation at home.

Think about this:

USAID is only 0.7% of the federal budget.

If they've found this much fraud and waste in this one tiny piece already, imagine how bad the rest of it is.

A viral video making the rounds is exposing the terrifying reality of what USAID has really been up to.

[READ MORE: Darren J. Beattie Joins Trump State Department—Issues Exclusive Message to Loyal Revolver Readers](#)

From hidden bank accounts to secret operations, USAID is nothing more than a front group funneling cash into a Gestapo-like US government, marching around the world overthrowing governments and turning nations into CIA-controlled puppet states. And if that wasn't bad enough—it is—this same group has now turned its full force against the American people, treating US citizens like pawns in their global power game.

This chilling video exposes exactly why the Dems are so terrified over losing USIAD. In short, it's been used to control and manipulate the world, including right here at home, and it's all being funded by you—the hardworking American taxpayer.

Natalie Winters from Bannon's War Room has been sounding the alarm on the plot to overthrow President Trump for ages. And sure enough, the lawfare against Trump—the endless impeachments, the sham trials, all of it—was paid for with laundered money from none other than USAID.

The architects behind the Trump impeachments and lawfare were plotting to launder money through USAID for their anti-Trump resistance efforts.

I obtained their "2025 Democracy Playbook" which admits to all of this.

Mike Benz sat down with Glenn Greenwald to break down USAID and its true mission. According to Benz, not a single project they touch is honest—everything they do is cloaked in secrecy and deception.

Everything.

Former State Dept. official [@mikebenzcyber](#) exposes how the U.S. uses USAID to topple foreign governments and covertly influence other countries:

The key takeaway here is that USAID has been using its power, manipulation, and scheming against the American people. The same dirty tricks they use to topple foreign governments are happening right here at home, and the kicker is, we're the ones funding our own downfall.

USAID is also working to silence Americans in Europe, pushing censorship to crush political dissent. At this point, they sound less like a humanitarian group and more like North Korea's propaganda machine.

Take a look:

We recently covered how USAID played a key role in ousting Brazil's populist leader, Bolsonaro—better known as “Tropical Trump.”

[Revolver:](#)

Let's face it, right now, we're nearly \$37 TRILLION in debt, yet somehow, we're still throwing taxpayer dollars around like Monopoly money, and meddling in other countries' affairs. It's absolute insanity. This nonstop funneling of cash into foreign nations and CIA-backed spy games has to end.

And speaking of CIA games—wait until you hear what your hard-earned tax dollars were wasted on through USAID... killing populism and turning Brazil back into a Marxist, progressive hellhole, courtesy of the US government.

Catch Up:

Mike Benz on how USAID spent tens of millions of dollars of US taxpayer funds to remove Jair Bolsonaro from power and end free speech in Brazil:

“When populist waves swept the world within the U. S. in 2016 with Trump and with what happened all over Europe with Marine Le Pen and Matteo Salvini and Nigel Farage, USAID declared censorship holy war against every single populist group, including Bolsonaro. Steve, I'm telling you right now, if USAID did not exist, Bolsonaro would still be the president of Brazil and Brazil would still have a free and open internet.

It was USAID that spent tens of millions of dollars of American taxpayer money funding the push to get anti misinformation bills passed in the parliament there. Funding the legal advocates who pushed the censorship court there, the TSE, to crack down on Bolsonaro. tweets and WhatsApp and Telegram messages.

They built a censorship octopus in Brazil and it was built entirely on USAID because USAID declared Bolsonaro a populist, Trump of the tropics, and then set up this operation to control the information ecosystem there. One of the USAID grantees even said on a public call that the purpose was to eliminate the, uh, the international exchange of ideas between the Trump movement and the Bolsonaro movement.

That's what USAID does. They kill domestic populism because it gets in the way of their foreign policy goals.”

Think about it: USAID ousting Bolsonaro and ensuring a Lula victory gave China the boost they needed in the region, and did absolutely nothing for the United States – all it did was advance the toxic left-wing agenda.

You can watch the entire bombshell interview below:

But USAID's evil shenanigans are about to end. President Trump and his team, with Elon Musk by his side, are set to dismantle this corrupt operation once and for all. What that will look like exactly remains to be seen. Will it be completely dissolved or restructured into a true humanitarian group with actual oversight and a much smaller budget?

Either way, this is the message you get when you visit the (fake) USAID website.

On Friday, February 7, 2025, at 11:59 pm (EST) all USAID direct hire personnel will be placed on administrative leave globally, with the exception of designated personnel responsible for mission-critical functions, core leadership and specially designated programs. Essential personnel expected to continue working will be informed by Agency leadership by Thursday, February 6, at 3:00pm (EST).

For USAID personnel currently posted outside the United States, the Agency, in coordination with missions and the Department of State, is currently preparing a plan, in accordance with all applicable requirements and laws, under which the Agency would arrange and pay for return travel to the United States within 30 days and provide for the termination of PSC and ISC contracts that are not determined to be essential. The Agency will consider case-by-case exceptions and return travel extensions based on personal or family hardship, mobility or safety concerns, or other reasons. For example, the Agency will consider exceptions based on the timing of

dependents' school term, personal or familial medical needs, pregnancy, and other reasons. Further guidance on how to request an exception will be forthcoming.

Thank you for your service.

Goodbye, and good riddance to CIAID.

We'll leave you with a couple of memes—ones that will definitely make you laugh but also remind you just how badly we've been played by our own crooked government. The joke's on us, and it's been running for far too long.

I will not be surprised if it is ultimately discovered/uncovered that USAID has been funneling taxpayer's loot to the Alphabet networks to keep up their propaganda. There is no way networks like Communist News Network and PMSNBC can afford to be paying the exorbitant salaries of some of their main propagandists, w/ their viewership dwindling, they are not generating the kinds of revenues to support these salaries. Wouldn't be funny if it was discovered it was USAID paying the hosts of ABC's The Phew, all using creative bookkeeping. Funnel the monies around the Globe and them move it from one brown bag to the next until it gets back here. Samd as the billions that went to Ukraine's war effort. What w/ Ukraine's top pols and generals buying up grand properties in other countries., you gotta know some of our pols are getting their cuts.

The irony is so rich, the American government for decades have been badmouthing the corruption of other governments, when all the while, we have been making them look like pikers in the corruption business. over the decades, we probably have lost count of the governments we have helped to overthrow. Many have turned out to be disasters. As an example, we took an allied Eyeran under the Shah and handed to the cra zy toll ah Khomeini and the rest is "histry"... We took an allied Nicaragua and handed it over to the Communistas. We got the Shah and Somoza thrown out, and Somoza ultimately executed by Fidel's boyz.

We (as a government) have much blood on our hands.

 That was thanks to the late James Carter who decided Iran ought to be handed back to the "people." He betrayed our ally - the hand-picked Shah - and we created an eternal enemy seeking nuclear power. If Carter had his way, he'd have handed it over to them.

 Clearly Trump knows USAID is a thinly disguised veil for the CIA. The left is squealing like pigs because they don't want their disgusting sick evil policies and actions to be exposed revealing the evil demonic spirit that controls them. Keep exposing the demonic evil left even though many like me have large family tree branches who believe they are the paragon of Christ and are see no, hear no speak no evil when it comes to the demonic left.

How many Republicans knew about all this corruption over the years and just ignored or helped to hide it? Has anyone else noticed when these Republican congress members leave office they never say one word about the corruption in the swamp? This country is definitely lost if the Trump movement isn't able to root all this stuff out.

Both parties hate Trump and the MAGA base. I consider it a badge of honor to be hated by both parties.

The CIA is right that it's easier to control the world with covert cultural influence, every means of soft power, rather than using the military. But now the world govt has gone globalist, and the motive to promote democracy has become instead promoting chaos. Chaotic, corrupt society with weak govts allows globalists more control than lawful society. N@TO/Five Eyes is now the military-intel arm of the globalists, and America is now just a subsidiary of N@TO. And America is the last big block to the globalist goal of world chaos and world subjugation.

The oil stolen from Syria by CIA occupation forces was sold to fund black ops money from that funded the Democrats massive election fraud, including fake foreign printed ballots used in Arizona and Michigan, in 2020, 2022, and 2024. Trump pulling out of Syria and Ukraine so this corrupt CIA-Democrat money laundering operations end, too.
