New details reveal just how disastrous Zelensky’s faceplant really was...

Zelensky's grip on power is crumbling, and the Ukraine war narrative is collapsing along with it. With the Biden regime out and America First in, President Trump and Vice President JD Vance are refusing to bankroll the deep state's endless wars.

[READ MORE: Transgender attacks grandfather and grandkids in violent road rage outburst—bullets fly...](#)

The “blank-check” era is over. Let’s face it, Americans are fed up with sending billions overseas while their own country spirals into the abyss. And now, with new revelations showing just how badly Zelensky fumbled his diplomatic chances, his so-called “strategic genius” looks more like blind arrogance. Now that the cards have fallen, the question isn’t whether Ukraine will get more aid—they won’t. The real question is whether Zelensky can survive politically.

And after what Treasury Secretary Scott Bessent just said, it’s looking even worse for Little Z. He pulled back the curtain on just how badly Zelensky fumbled this—turns out, it was even worse than we thought.

[READ MORE: Even TikTok’s Trump-haters admit he was right to put Zelensky in his place...](#)

Trump sent Bessent to Kiev to bring Ukraine closer to the US and make it clear to Russia that there was no daylight between the two countries—hand-in-hand, shoulder-to-shoulder, the whole deal. But instead of locking in support, Zelensky waffled, stalled, and then backed out completely. Now, with Trump and Vance refusing to throw more American tax dollars into this dumpster fire, Zelensky’s blunder—his total miscalculation and failure to read the room—is coming back to haunt him.

<https://twitter.com/IngrahamAngle/status/1895821332987707463>

None of this should surprise anyone who’s been even half awake during this “war.” The truth is, Zelensky isn’t interested in peace. He’s a puppet for the deep state, who want to take out Russia. Peace is not part of that plan—

it's all about NATO, as Zelensky makes painfully clear in the clip below.

Clandestine:

Did you catch that?

Zelensky admits that if Ukraine gets NATO membership, then he has “fulfilled his mission”.

His mission is not to govern Ukraine. His mission is NATO membership for Ukraine, which would immediately trigger WW3.

The reason his mission is WW3, is because that's the only scenario where he MIGHT survive. His only way out is if NATO comes in and takes over the fight with Russia directly. That's his plan, but realistically he would need the US in order to pull it off.

Zelensky, and his Deep State handlers, are literally trying to initiate full-scale WW3, in an effort to cover up the largest money laundering scheme in history, and crimes against humanity for bioweapon development.

That's what we are witnessing.

This is not about Ukraine's sovereignty. This is about covering up unfathomable criminality.

War is the will of the few, not the many.

Speaking of, a viral clip is making the rounds on social media, allegedly showing Ukrainian soldiers hoping for an end to the war.

https://twitter.com/_johnnymaga/status/1896050370528624955

Despite the propaganda media's fake spin, real on-the-ground US support for Ukraine is looking mighty bleak these days. In fact, reporter Nick Sortor could barely find this pro-Zelensky event in DC. He raises a good question—are these embarrassingly small protests a sign that USAID funding has dried up? Did the Dems run out of cash to pay their professional activists? Think about it—for years, the uniparty and the propaganda media have pushed this narrative that Ukraine is America's top priority—so where was the massive pro-Zelensky turnout? You'd think his White House heave-ho would've sparked an outpouring of support. Instead, all we got were crickets. Makes you wonder—was this so-called “overwhelming support” for Ukraine ever real?

[READ MORE: Meet the most entitled, useless federal worker in America...](#)

Take a look:

<https://twitter.com/nicksortor/status/1896349375112290357>

At this point, it's clear—Zelensky didn't actually “fumble” in the traditional sense. He played his hand exactly as he intended. He never wanted peace; he wants an endless war machine fueled by American tax dollars and is perfectly fine with World War III. When he was given the chance to secure US support under Trump, he stalled and backed out because real diplomacy was never the goal. As the old saying goes, when someone shows you who they are, believe them the first time.

With adults in the White House, we should see NATO and the UN shape up, or the US will ship out, leaving them both destitute. I'd prefer the latter.

In case anyone missed it go back and watch Graham's "speech". He says it out loud, he told Zelensky not to take the bait!! Meaning, don't sign the mineral rights deal which could possibly lead to peace.

In today's world, "shaping up" is usually only temporary, allowing behind the scenes manuevering in order to buy time or achieve some other advantage. Looking at the big picture, the US pulling out of NATO and the UN should happen regardless.

NATO is the one he should pull us out of. NATO is basically the US military with a veneer of euro-Canadian forces to make it look like a coalition. Now they're trying to posture that Europe can defend Ukraine while at the same time trying to manipulate us to do so. European military spending in NATO ADDED TOGETHER is still less than ours, and their military forces can't communicate effectively with ours. Plus, Russia is not a threat, the Globalists operating out of Europe are.

NATO is an anachronism and has been for over thirty years now. It should have been disbanded in 1991.

Yup. Not only is the Warsaw Pact long gone, most of its former members are now aligned with Western Europe against potential Russian aggression. If NATO/Warsaw Pact was a balancing act, the balance has shifted entirely to Europe and away from Russia. If there was a need for US support during the Cold War (and I believe there was, and served as part of that deterrent force), that situation has long been replaced by a Europe that needs to put on its big-boy pants and assume responsibility for its own security. Europe's post WW II infirmities are long since in the rearview mirror.

Yes..."posturing" is right! Even the loan they just promised him is not really their own money...nor will it be repaid by Ukraine. The interest and principal will be repaid with interest accumulating on "immobilized Russian assets" over the next 30 years.

Is this an attempt to goad Russia without actually putting any the boots on the ground they claim they will send?

A better term would have been "Zionists". But he's right - to a point. There are regular decent jews, and then there are the Satanic zionist jews that run Israel (and via AIPAC) our government. Worst part is they aren't even real Jews. (ie: descendants of Jacob/ Israel. They are Khazarians (south of today's Ukraine) who converted to Judaism in 740 AD. These pretend jews are masters of the false flag events, and are inherently evil genocidal maniacs.

- The Bible:

Relates that the Khazar (Ashkenaz) Jews were/are the sons of Japheth not Shem:

-

"Now these are the generations of the sons of Noah, Shem, Ham, and Japheth: and unto them were sons born after the flood. The sons of Japheth;...the sons of Gomer; Ashkenaz..." (Genesis 10:1-3)

-

Therefore, the Bible proves that the Ashkenaz Jews [Khazars] are not the descendants of Shem and cannot be Semite.

"Textual witnesses dating from the 9th and 10th centuries claim the

Khazars adopted Judaism in the 8th century. These texts are not without problems, however, and lack of archaeological or other physical evidence indicating a mass conversion has called both the extent and historicity of this conversion into doubt."

That NATO treaty obligation only works if the NATO nation attacked is attacked on their own soil. Being attacked in Ukraine will not do it. That's NOT to say the NATO representatives are thinking that they can use it that way, but we are not actually obligated unless they are attacked at home.

WE LIED TO RUSSIA!!! After the fall of the Berlin Wall, we promised Russia that NATO would never advance farther east than a united Germany. WE LIED! WE LIED! WE LIED! We wouldn't let the Soviets put missiles in Cuba. And we damned sure wouldn't let them put missiles in Mexico either! THAT'S WHAT THIS WHOLE WAR IS ABOUT!

 NATO should have dissolved when the Warsaw Pact did in 1991. Since the fall of Soviet Communism USA elites wanted to become the new British or Roman Empire and that's causing all the trouble.

Excerpt is a near perfect summary and have been saying the same since Hunter's laptop story was squashed!

[Zelensky, and his Deep State handlers, are literally trying to initiate full-scale WW3, in an effort to cover up the largest money laundering scheme in history, and crimes against humanity for bioweapon development.

I would add that the globalists' color revolutions (their destruction of democracy because they don't want to be bothered with elections and minions) really went on steroids after they overthrew democratically elected Yanukovich and installed frauds the latest being the high heels dancing Nazi Zelenskyy.

Ukraine is the hill, that the globalists who gave us the fraud obama, are going to die on— because their arrogance and evil is being exposed and REJECTED by the world!
