...

It is important to get the mRNA Bioweapons Prohibition Act submitted in as many states as possible. The intention is to build momentum and get a state somewhere to pass this or for a Governor or AG to sign the writing on the wall and enforce existing state bioweapons and weapons of mass destruction laws.

Mind Matters and Everything Else with Dr. Joseph Sansone Podcast

Shocking we have go state by state. With so much evidence of harms. Should just be a nationwide ban. Period.

Sorry about the Minnesota comment, so stupid and ironic. But it just comes to show the strength of the ennemy the way Ms M and the others had to fight to get such a self evident thing through. On Shannon Joy she told everything in detail and it

was quite a fight that was won in the last minute. Unbelievable that there needs to get that far.... So sorry, she seems such a fine person! Happy Easter!
