BREAKING:

This makes me physically ILL.

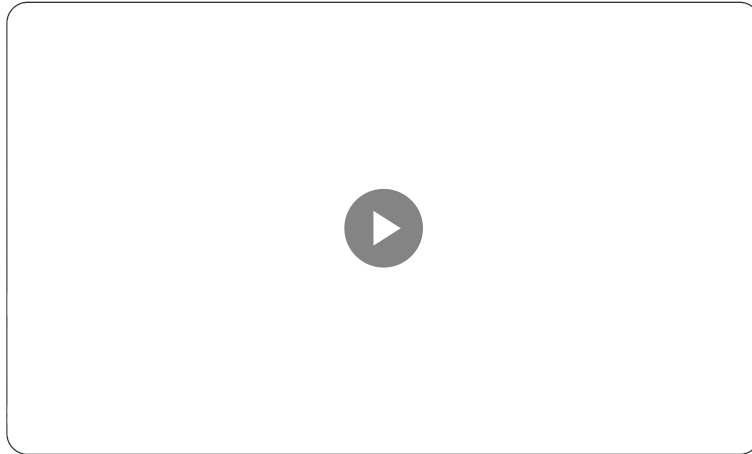

This also why the left is losing it over Elon Musk auditing their grift.

Aaron Heitke, the U.S. Border Chief with experience spanning five administrations, has unequivocally confirmed that the Biden-Harris administration directed him to suppress, hide, and alter data related to the border crisis.

He claims he was instructed to intentionally reduce detention capacity across the country while simultaneously issuing new Social Security numbers to undocumented immigrants.

According to Heitke, this enabled them to access full Social Security benefits and Medicaid, facilitated their voter registration, and ultimately PERMITTED them to CAST VOTES in U.S. ELECTIONS.

And there it is.
